A BILL

To designate certain public lands as wilderness and certain rivers as wild and scenic rivers in the State of California, and to establish the Ancient Bristlecone Pine Forest, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Southern California
5 Wild Heritage Act of 2003”.

6 **SEC. 2. FINDINGS.**

7 (a) The Congress finds and declares that—

1 (1) the publicly owned lands and rivers of Cali-
2 fornia are a wildland resource of extraordinary value
3 for this and future generations;

4 (2) increasing pressure from California's rap-
5 idly growing population threatens to irrevocably
6 harm these remaining wild areas and wild rivers;

7 (3) statutory protection is needed for these
8 areas to ensure that they remain a part of our nat-
9 ural heritage and continue to be a source of solitude
10 and inspiration for all Americans;

11 (4) continuation of military activities, including
12 overflights, military rotary wing environmental train-
13 ing, military maneuvers, testing and evaluation, and
14 other activities without limit to frequency is not in-
15 compatible with the protection and proper manage-
16 ment of the wilderness and wild and scenic river re-
17 sources designated by this Act;

18 (5) wildfire management activities necessary to
19 protect public health and safety and private property
20 are fully allowable in wilderness areas and the Sec-
21 retary may take any measures deemed necessary to
22 control or prevent fires; and

23 (6) these lands shall be included in the National
24 Wilderness Preservation System and the National
25 Wild and Scenic Rivers System, in order to—

1 (A) preserve the unique wild and natural
2 features of these landscapes;

3 (B) protect a diverse array of ecosystems,
4 plants, animals, geologic structures and hydro-
5 logic features that represent the natural splen-
6 dor of California;

7 (C) protect and preserve historical and cul-
8 tural archaeological sites associated with an-
9 cient Indian cultures and the settlement of Cali-
10 fornia;

11 (D) protect and preserve areas that con-
12 tinue to be used by Indian tribes for spiritual,
13 cultural, or subsistence practices;

14 (E) protect watersheds, including those
15 that play an essential role in providing munic-
16 ipal and agricultural water and power supplies;

17 (F) provide opportunities for compatible
18 outdoor recreation, including horseback riding
19 on saddle and pack stock, hunting and fishing,
20 hiking and camping, whitewater rafting, trail
21 running, and excursions led by commercial out-
22 fitters;

23 (G) retain and enhance opportunities for
24 scientific research in pristine ecosystems; and

1 (H) promote the recovery of threatened
2 and endangered species, including salmon and
3 steelhead.

22 by Indian people. Any such closure shall be made to affect
23 the smallest practicable area for the minimum period nec-
